Forecast for Sunday 01 Sep 2024

Weather: A damp start on Sunday morning with an increasing chance of heavy showers moving in from the south. These could turn thundery in places, while other areas stay dry. Probably brightening up later in the afternoon with sunny spells, but still a chance of showers. Feeling warm and humid with light winds. The risk of thunderstorms continuing into the evening.

Chance of cloud-free hill tops above 600m: 20% becoming 80%.

Low cloud and visibility: Extensive cloud obscuring hills above 400m at first. Cloud lifting to 600m by midday and then above most summits by mid-afternoon to leave good visibility to end the day, albeit still rather hazy. Widely poor visibility during heavy showers and thunderstorms.

Meteorologist's View

While confidence remains low, there is the potential for being caught out in heavy thundery shower for much of the day. Make sure to check on what to do if caught in one, and plan accordingly.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
02:00 on Sun 01 Sep 2024	0mm	0mm	0.2mm

Forecast for Monday 02 Sep 2024

Weather: Further showers and thunderstorms possible during the morning, before clearing north. A cloudy and humid day follows, with further outbreaks of showery rain and drizzle, perhaps heavy and prolonged at times. Some drier and brighter intervals also likely, most likely late afternoon.

Maximum wind: Easterly 10 mph becoming Westerly 15 mph.

Chance of cloud-free hill tops 600m: 20% becoming 80%.

Low cloud and visibility: Periods of cloud obscuring routes above 300m at first. Lifting to become periods of cloud above 600m from early afternoon. Often poor or very poor visibility at higher levels and at all levels during any spells of rain and drizzle. Occasionally good visibility at low levels, most consistently during the afternoon.

Temperature: **Valleys:** Plus 16 Celsius becoming Plus 22 Celsius.
At 600m: Plus 15 Celsius.
Freezing level: Above the summits.
